

Safety, Health & Environment (SHE) Policy

At allnex, we are committed to the protection of our employees, customers, contractors, the environment and the communities in which we operate. As the leading coating resins company we actively contribute to the United Nations Sustainable Development Goals.

We believe that sustainable businesses give priority to safety, health, security and environmental considerations. This implies full compliance with legal, permit and other regulatory requirements which apply to our operations. We are committed to pollution prevention, energy use reduction, water conservation, waste prevention, and the use of sustainable raw materials. Our internal standards, objectives, performance tracking, procedures and audits are applied globally and are the foundation for our continuous improvement and operational excellence.

We design, manufacture and market our products and services in an ecologically and socially sound manner and to the benefit of our customers and in dialogue with our stakeholders. We manage our risks via a systematic identification of hazards, an assessment of the associated risks, the implementation of the appropriate controls, employee and other stakeholder participation, and verification of the integrity of this process.

The company will provide resources, training and information, when and where needed to achieve our strategic and operational goals. We expect from all employees a full commitment to Safety, Health, Environment, Sustainability values and we should all lead by example. A positive attitude from all of us contributes to the high level SHE culture to which we are dedicated.
